

FINAL CONFERENCE invitation DISCUS PROJECT

Digital transformation in the construction sector: challenges and opportunities

(EC Grant Agreement no. VS/2019/0078)

25 October 2021 – 9:00 CET

ON-LINE

We are pleased to invite you to the FINAL CONFERENCE of the DISCUS project

The DISCUS project (Digital Transformation in the construction sector: challenges and opportunities) aims to analyse and to strengthen the role and contribution of innovative industrial relations structures, including social dialogue, in responding to the major challenges and opportunities brought by digitalisation and technological changes in the construction sector to guarantee better environmental and social conditions for the workers and citizens of the European Union.

DISCUS cover six EU Countries: Belgium, Bulgaria, France, Germany, Italy and Spain, with different industrial relation systems. The project aims to compare and disseminate best practices at national level of new digitization-based constructive processes, combining the three dimensions - environmental, economic and social - within a new Industrial process of building production considering different experiences and trends in North, Southern, Central and Eastern Europe to point out the divergences and convergences, strengths and weakness of the ongoing innovation process.

This final conference will be organised around presentations of the main findings of the Discus project, with round tables of experts, union and employers representatives.
